

# Institutional Donors

Every year, Project HOPE receives financial support from corporations, foundations, organizations, government, and bilateral donors. This support is essential to our work around the world, and we are proud to recognize those who contributed \$5,000 or more in Fiscal Year 2016-16A. To learn more about partnering with Project HOPE, visit [projecthope.org/about/partnerships](http://projecthope.org/about/partnerships).

Project HOPE is a trusted partner to government agencies, bilateral donors and international organizations working to make an impact on the world's most vulnerable people through public health development programs and services. With support from government agencies and collaborating partners, we successfully build local capacity, exchange knowledge and create innovations to improve and strengthen health systems in a cost effective way.

***“At Sanofi Genzyme we recognize that serious diseases don't discriminate. They affect people from all corners of the world. We share with Project HOPE a commitment to providing sustainable healthcare solutions to those in need, and we look forward to continuing our partnership to help the therapies we develop reach patients regardless of their economic circumstances.”***

**- Daniel Gruskin, M.D., Head of Global Medical Affairs, Rare Diseases, Sanofi Genzyme.**
